

# KAMIL ZIELIŃSKI

SENIOR ANGULAR DEVELOPER | FRONTEND · PYTHON FULL-STACK

Lublin, Poland • +48 798 682 086 • needik@gmail.com • linkedin.com/in/k-zielinski

## 01 PROFILE

Senior frontend engineer specializing in Angular and TypeScript, with 10+ years building complex B2B products. Experienced in modernizing large Angular applications, making architectural decisions, reviewing code and mentoring developers. Strong Python/Django full-stack background, commercial Next.js and Astro work, and independent React/Vue projects.

### ANGULAR ENGINEERING

Architecture, migrations, performance, code reviews and mentoring

### PYTHON FULL-STACK

Django products, API integrations and backend development

### FRONTEND VERSATILITY

Next.js and Astro commercially; React and Vue in independent work

## 02 TECHNICAL EXPERTISE

**CORE FRONTEND** Angular, AngularJS, TypeScript, JavaScript, RxJS, Angular Signals, HTML5, SCSS/CSS, PrimeNG, Angular Material

**OTHER FRONTEND** Next.js, Astro (commercial); React, Vue (independent projects); Alpine.js, Tailwind CSS

**BACKEND / CMS** Python, Django, Wagtail CMS, Node.js, NestJS, Express.js, Payload CMS

**ENGINEERING** REST, GraphQL, SSR, SEO, performance profiling, Jest, Jasmine, Karma, Cypress, Git, Docker, Sentry

## 03 PROFESSIONAL EXPERIENCE

### IDEAMOTIVE / Angular Developer

Mar 2025 – Jun 2026

Client: Pacemo / Memcare · B2B funeral-industry case-management platform

- Led the Angular 12 to 21 migration of 200+ components, handling most of the refactoring and architectural decisions independently.
- Reduced build times by approximately 70% while improving maintainability of a large, evolving codebase.
- Delivered features for 100+ B2B clients, reviewed code and onboarded and mentored another engineer.

### PROMOSHIP / Frontend & Full-Stack Developer

Apr 2016 – Present

Long-term commercial collaboration spanning Angular, TypeScript and Python/Django projects.

### 500metrow · Astro / Next.js / Payload CMS

Jul 2026 – Present

- Developing a community cleanup platform, including Astro pages and Next.js / Payload CMS functionality.

### Growing Libraries · Python / Django / Alpine.js

Mar 2025 – May 2026

- Delivered backend and frontend features for a SaaS platform used by 100+ public libraries.
- Integrated DataAxle and Melissa APIs to enrich more than 500,000 community and address records.

### Rmarket.pl · Astro / Wagtail CMS

Dec 2024 – Jun 2025

- Developed an Astro frontend connected to a Python/Django-powered Wagtail CMS backend.

## 04 PROMOSHIP PROJECTS / CONTINUED

### YouMap · Angular / GraphQL

Sep 2023 – Mar 2025

Social mapping platform · Angular, GraphQL, PrimeNG, Google Maps API

- Implemented server-side rendering and SEO improvements to strengthen initial loading and search visibility.
- Built user-facing features with Angular, GraphQL and map-based interactions.

### HID Global / Ticketing · Angular

Jul 2020 – Sep 2023

Large-event ticketing and access-control platform

- Developed and maintained event access-control interfaces used at sports events with more than 50,000 attendees.
- Wrote technical documentation and supported project handovers between teams.

### PITCHED · AngularJS

Mar 2019 – Jul 2020

Playlist delivery and management for Spotify and Deezer

- Built, tested and maintained playlist-management functionality in an AngularJS application.

### Prodwatch · Angular / NestJS

Jul 2018 – Mar 2019

Production-management software for factory assembly lines

- Rebuilt a legacy AngularJS application using Angular 6 and a NestJS / Express backend.
- Introduced unit testing, reaching approximately 80% coverage in core modules.

### Schuelernachhilfe1.de · Python / Django / AngularJS

Oct 2017 – Jul 2018

- Developed tutoring, scheduling and payment functionality across frontend and backend.

### Cloudware Data Center Manager · Python / Django / AngularJS

Apr 2016 – Oct 2017

- Developed data-centre management features and interactive 2D infrastructure visualisations.
- Worked directly with clients on custom requirements and added automated tests.

## 05 EDUCATION & LANGUAGES

**BSc in Computer Science** · Maria Curie-Skłodowska University, Lublin | 2012–2015

**Polish** Native    **English** Advanced (C1)
